RECORD OF CONTINUING PROFESSIONAL DEVELOPMENT

REKORD VAN VOORTGESETTE PROFESSIONELE ONTWIKKELING

SAICE

Bridging the Gap

CONTINUING PROFESSIONAL DEVELOPMENT (CPD)

Guidelines for CPD are given in Section 5 of a document entitled “Guidelines for Professional Registration”, published by SAICE.

This Logbook is a convenient means of recording CPD. It has been designed to accommodate all types of CPD activities that could be undertaken during the Training period, as well as a person’s whole career.

A record of CPD is required when applying for registration, and a photocopy of the relevant pages is a convenient means of providing the necessary information. The logbook has been designed with this in mind, and copies from the logbook are entirely acceptable to ECSA.

It is recommended that every member continues with CPD throughout their entire career and maintains a record thereof. It is recommended that five days of CPD be achieved each year after registration.

To assist in identifying suitable courses SAICE publishes a "Courses Guide for Civil Engineering". In addition, the local branches of the Institution may assist in advice on courses, which are available in their areas.

VOORTGESETTE PROFESSIONELE ONTWIKKELING (VPO)

Riglyne vir VPO is in Afdeling 5 van ‘n dokument getitel “Guidelines for Professional Registration” aangedui. Die dokument is deur SAISI gepubliseer.

Die Logboek is ‘n maklike manier om rekord te hou van VPO. Dit is ontwerp met die doel om alle tipe VPO aktiviteite te dek wat ‘n persoon gedurende sy Opleidingsperiode, sowel as sy hele loopbaan kan aanpak.

‘n Rekord van VPO is noodsaaklik wanneer aansoek vir Professionele registrasie gedoen word, en ‘n afskrif van die toepaslike bladsye is ‘n maklike manier om hierdie inligting te verskaf. Die aspek was in gedagte gehou toe die boekie ontwerp is, en afskrifte is heeltemal aanvaarbaar vir ECSA.

Daar word aanbeveel dat VPO deur elke lid beoefen word gedurende sy hele loopbaan, en dat rekord daarvan gehou word. Dit word aanbeveel dat vyf dae VPO onderneem word gedurende elke jaar na registrasie.

SAISI publiseer ‘n gids “Courses Guide for Civil Engineering” om die kies van VPO aktiwiteite te vergemaklik. Plaaslike Takke van die Instituut kan ook advies gee oor kursusse wat besikbaar kan wees in hulle omgewing.
