

SPEBS

SAICE Patrons' Engineering Bursary Scheme

SPEBS is a bursary scheme administered by the South African Institution of Civil Engineering (SAICE) to assist financially needy and academically deserving students who study towards the National Diploma or the Degree in Civil Engineering at a South African tertiary institution.

National Diploma students: Only candidates who have already passed their first level (S1) National Diploma examination are considered. **SPEBS** bursaries are therefore intended for S2, S3 and S4 civil engineering students only.

Degree students: Only candidates who have already passed their first year examinations are considered. **SPEBS** bursaries are therefore intended for 2nd, 3rd and 4th year civil engineering students only.

Bursaries are granted per semester. As **SPEBS** funds are limited, bursaries are awarded on merit – thus, excellent marks improve a student's chances of being awarded a **SPEBS** bursary. To be considered for a bursary, an applicant must have completed all the subjects from previous study levels. Depending on the student's academic performance, and the availability of funds at the time, an allocated bursary could be extended to assist the student until completion of his/her course.

SPEBS funds are intended to partially cover registration, tuition and books. Currently we award bursaries to a maximum of R5 000 per student per semester but, depending on the conditions set by the patron donating the money, this amount could be more or less than R5 000.

Successful candidates are notified accordingly during March or September, after which they have to provide us with certified proof of registration, which clearly states subjects registered for, before funds are released. Bursary cheques are made payable to the tertiary institution concerned to be credited to the bursar's account.

We regret that we are not able to consider students from foreign countries.

CLOSING DATES:	For first semester	31 January
	For second semester	31 July
